Location: Baghdad – Al Karrada

Professional Summary

A detail-oriented and technically proficient IT professional with strong foundational knowledge in network security, system administration, and technical support, developed through intensive self-study and hands-on lab environments. Experienced in configuring and troubleshooting Windows and Linux environments, with practical knowledge of Active Directory, DNS, DHCP, and network infrastructure. Passionate about delivering high-quality technical support while maintaining strict confidentiality and data security standards. Seeking to apply technical expertise and problem-solving skills in an IT Help Desk role.

Education

Artificial Intelligence Engineering Technical College

Cyber Security Technology Engineering (2023) – [Bachelor's Degree](#)

Certifications

- CCNA Practical Course Certified – Cisco (2025)
- CompTIA CySA+ (2025)
- MCSA Certified – Microsoft (2025)
- eJPTv2 – INE (2026)
- Security, Compliance, and Identity Fundamentals – Microsoft (June 2025)
- Information Security Specialist – Let's Defend (June 2025)
- Network Mastery for Ethical Hacker – Udemy (May 2024)
- Operating Systems – Cisco (May 2024)
- Cyber Security Elements Workshop – Titanium (March 2024)

Technical Skills

Operating Systems: Windows (7/10/11, Server), Linux (Kali, Parrot OS, Ubuntu), CLI, permissions, security configurations.

Networking: TCP/IP, UDP, VLANs, Routing & Switching, STP, LACP, ACLs, NAT, DNS, DHCP, FTP, File Servers.

Active Directory: User/Group/OU Management, GPOs, Secure AD Architecture.

Hardware Support: Desktops, Laptops, Printers, Scanners installation and troubleshooting.

Security Tools: Nmap, Wireshark, Metasploit, John the Ripper, Aircrack-ng.

Virtualization: VMware Workstation, VirtualBox, PNetLab, EVE-NG, GNS3, Hyper-V.

Programming: Python, C++, HTML, CSS, Bash Scripting.

Soft Skills

- High Attention to Detail
- Problem Solving & Analytical Thinking
- Commitment to Confidentiality
- Effective Communication (English & Arabic)
- Teamwork & Collaboration
- Flexibility for Shift Work
- Mobility and Travel Readiness

Projects

Network Infrastructure & Security Lab

Designed and deployed a virtual enterprise network using VMware Workstation and PNetLab. Configured Windows Server, Active Directory, DNS, DHCP, VLANs, ACLs, File Servers, and GPOs. Conducted hardening and security audits on Windows and Linux systems.

Help Desk Simulation & Troubleshooting

Diagnosed and resolved printer, scanner, desktop, and laptop issues. Performed user account management, permission troubleshooting, DNS/DHCP diagnostics, and applied confidentiality best practices.

Penetration Testing & Network Vulnerability Assessment

Conducted controlled assessments using Nmap, Wireshark, and Metasploit to identify vulnerabilities and analyze network traffic.

Professional Experience & Leadership

Freelance Tech Community Builder | Next-Gen Tech Leaders (Sep 2025 - Present)

- Built and managed a community of 100+ tech students.
- Collaborated with Titanium Center and Hackviser to promote technical training.
- Organized workshops on IT infrastructure, networking, and cybersecurity.
- Developed peer-to-peer mentoring programs.
- Promoted technical certifications and practical IT skills.
